

## THE INSTAGRAM TEST

1. BEAUTIFUL: Like your own beauty more than you like being liked.

Use Instagram to rate your self-absorption. How often do you use the number of likes on a picture you post to determine how beautiful the picture actually is?

2. SPEED: Fearlessly move toward failure, believing success is beyond it.

Use Instagram to rate your self-consciousness. Does your mind run a mile a minute, checking your "likes" while your life goes nowhere different?

3. EASY TO SHARE: Want to share the good more than you want to hold the bad.

Use Instagram to rate your self-interest. How easy is it for you to like someone else's picture?
